PROFESSIONAL SUMMARY

Backend Developer with hands-on experience building scalable and efficient server-side applications. Skilled in **Python, Django, and SQL**, with a strong background in database optimization and working with **Django's MVT architecture and ORM**. Capable of developing reliable and production-ready applications with **strong problem-solving abilities**. Has a foundational understanding of **AI and Machine Learning**, with an interest in applying these technologies to real-world solutions.

EDUCATION

- **Bachelor of Engineering in Artificial Intelligence & Data Science** — **Dec 2021 - Jun 2025**
  P. R. Pote Patil College of Engineering And Management, Amravati (SGBAU) — ***CGPA: 8.00/10***

TECHNICAL SKILLS

- **Programming Languages: Python, SQL**
- **Django & Backend Development: Django Framework, MVT Architecture, Django ORM, REST API Development, Authentication & Authorization, Middle-ware, Signals, Database Design, Query Optimization, Session Management.**
- **Data Analysis & Machine Learning: Data Analysis, Data Cleaning and Preprocessing, Exploratory Data Analysis (EDA), Data Visualization, Supervised & Unsupervised Learning, Feature Engineering, ML Algorithms, NLP (Fundamentals), Pandas, NumPy, Matplotlib, Seaborn.**
- **Tools: Git, VS Code, Jupyter Notebook, Google Colab**
- **Concepts: Data Structures & Algorithms (Basics), Object-Oriented Programming (OOP), Database Management Concepts.**

WORK EXPERIENCE

Backend Intern Zappkode Solutions — **Jun 2025 – Aug 2025**

- **Contributed to the development of scalable backend solutions for processing large documents, enabling efficient data extraction, transformation, and querying workflows.**
- **Designed and implemented template-based data extraction mechanisms, optimizing processing by identifying reusable patterns across similar document structures, reducing system load and improving performance.**
- **Developed backend workflows for structured data comparison by generating and processing JSON outputs, enabling accurate detection and highlighting of changes between different data versions.**
- **Built pipelines to handle image-based documents by integrating OCR processing with backend systems, converting unstructured data into machine-readable formats for further processing.**
- **Worked on designing and optimizing data retrieval systems, including handling large datasets and structured data storage, ensuring efficient querying and improved system performance.**

PERSONAL PROJECT

Property Finder Chatbot — Property Assistance Platform — **GitHub**
Tech: Python, Django, SQL, HTML, CSS, JavaScript

- **Developed a chatbot-based platform to assist users in property search without brokerage, improving user interaction and accessibility.**
- **Built backend functionalities using Django and managed database operations with SQL for efficient data handling.**
- **Implemented a responsive front end and integrated chatbot logic to enable real-time interaction and a seamless user experience.**

PDF Analyzer — Document Processing Platform — **GitHub**
Tech: Python, Django, NLP, HTML, CSS, JavaScript

- **Developed a PDF analysis platform to extract, process, and summarize textual content from documents for quick insights.**
- **Implemented backend using Django and integrated NLP techniques for text extraction, summarization, and keyword identification.**
- **Designed a user-friendly interface to upload PDFs and view analyzed results, including summaries and sentiment insights.**

Mental Health and Well Being Surveillance assessment and Tracking Solutions among Children
Tech: Python, Flask, Scikit-learn, Pandas, NumPy, Matplotlib, Chart.js

- **Developed an AI-driven platform to monitor, assess, and track mental health conditions among children for early detection and intervention.**

- **Built a machine learning model using Scikit-learn and performed data processing with Pandas and NumPy for accurate analysis.**
- **Implemented a Flask-based backend with interactive dashboards using Chart.js and Matplotlib for real-time insights and visualization.**

CERTIFICATIONS

- **Oracle Cloud Infrastructure 2025 Certified AI Foundation Associate** **2025**
  Oracle
- **NPTEL – Python for Data Science (Elite)** **Jan–Feb 2024**
  Indian Institute of Technology Madras (IIT Madras)
- **Data Analytics Using Python** **Oct 2024**
  Cognitive Class AI
- **Python Full Stack** **Dec 2024**
